REMARKS/ARGUMENTS

Applicant has amended the claims in response to the office action for the sake of focusing the subject matter of the claims and advancing prosecution. In addition, paragraph 53 on page 11 notes that in one embodiment the invention is a composition comprising at least two of the compounds set forth in a list that includes both 2-methyl-1-butanol and isobutyric acid.

The Examiner rejected the claims as being anticipated in light of the Herting patent.

The composition disclosed in the claim, as amended, is not disclosed in Herting,
rendering this rejection moot. Applicant therefore respectfully requests its withdrawal.
